

Amarr® Classica® Post Frame Buildings

Lucern design with Clear windows and Closed Square top section in True White/Hunter Green with Blue Ridge handles

Nothing can make a post-frame building look as unique as an **Amarr Classica garage door**. Visually, these doors have the appearance of a vintage wood door, but they are made of sturdy, low-maintenance steel. The numerous designs are stamped directly into the steel, providing a deep embossment and years of worry-free operation. Odd heights and odd widths are available.

Santiago design with Thames windows and Closed Arch top section in True White/Terratone
