

Amarr® Classica® Premium Steel Carriage House Garage Doors

Tuscany design in True White with Nile windows and Castle Rock handles

Cortona design in Charcoal Gray with Closed Square top and Nottingham ring handles and hinges

Santiago design in True White/Gray with Madeira windows and Blue Ridge handles and hinges

Tuscany design in True White/Wicker Tan with Madeira windows and Blue Ridge handles

Looks can be deceiving. From a distance, you see wood. Up close, it's sturdy, durable, low-maintenance steel. The Amarr Classica collection of carriage house doors. Classic carriage house styles that go up and down like traditional garage doors. Unique three-section tall designs, instead of four, help deliver a more authentic carriage house look. Deception never looked so good.

Northampton design in Walnut with Madeira windows and Canterbury handles and hinges

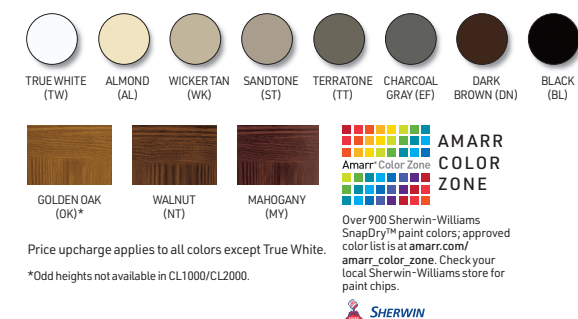

Cortona design in Sandstone/Wicker Tan with Madeira windows and Canterbury handles

Lucern design in Sandstone/Wicker Tan with Rhine windows and Blue Ridge handles and hinges

Colors

Actual paint colors may vary from samples shown. Amarr doors are pre-painted; homeowners can use exterior latex paint for custom colors. Non-factory painting of garage doors voids the paint finish warranty.

Aluminum decorative strap hinges with clavos not recommended for arch openings.

Construction

CL1000
Single-Layer: Steel

- Heavy-duty exterior steel
- Durable, reliable, low maintenance

CL2000
Double-Layer: Steel + Insulation

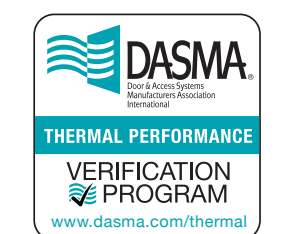

- Heavy-duty exterior steel
- Durable, reliable, low maintenance
- Environmentally safe polystyrene thermal insulation with vinyl backing
- Energy efficient
- Quiet operation

CL3000
Triple-Layer: Steel + Insulation + Steel

- Heavy-duty exterior and interior steel
- Durable, reliable, low maintenance
- Environmentally safe polyurethane thermal insulation
- Superior energy efficient
- Extra quiet operation

Verified thermal performance rating per DASMA Thermal Performance Verification Program. For best thermal performance, select a door with a low U-factor rating (less heat transfer) or high R-value rating (more heat resistance).

Amarr participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of a complete sectional door assembly. The lower the U-factor rating, the better the thermal performance.
